

OXFORD UNDERGRADUATE ADMISSIONS OFFICE

Supervisors' Instructions for the

Mathematics, Joint Schools, Computer Science Test, dd/mm/yy

The test is 2½ hours long and should be sat in the morning unless permission has been otherwise given.

Copies of the test paper are in the enclosed envelope. If you discover that there are insufficient copies of the paper and the instructions for students, please feel free to photocopy them.

Candidates should:

1. Write their names, where they are taking the test, the first choice of Oxford college (if known/applicable), degree subject and date of birth on the front of the test paper.
2. Note that there is space in the paper, with further blank pages at the end, to write answers.
3. NOT include extra sheets of rough work. Only answers in the paper will be marked.
4. Answer ONLY those questions relating to their choice of degree as described on the front of the test paper and throughout the paper. No extra credit can be gained by attempting other questions.
5. NOT use foreign language dictionaries, calculators or mathematical tables during the test.
6. Hand in their mobile phones to the test supervisor.

Special Arrangements: Candidates should be allowed whatever special arrangements they are allowed in comparable public exams (though excluding foreign language dictionaries or extra time solely for their use). Supervisors are asked to tick the “Special Arrangements” box on the front of the paper and include in the space below details of the special provisions, and reasons for these, or to securely attach to the test paper a letter with these details.

When the test is finished:

For Supervisors at Home and EU institutions:

1. Please post the paper(s) by first class mail using the enclosed label to: Richard Earl, Mathematical Institute, 24-29 St. Giles, Oxford, OX1 3LB.

For Supervisors at Overseas institutions:

1. Please photocopy the students' completed test papers and keep the photocopies securely for at least two weeks after the test date.
2. Post the students' completed test papers by courier using the enclosed label to: Richard Earl, Mathematical Institute, 24-29 St. Giles, Oxford, OX1 3LB.

In case of any problems please contact:

(i) Undergraduate Admissions Office enquiries line Tel: + 44 (0) 1865 288000 *or*

(ii) Richard Earl, (Mathematical Sciences Admissions Co-ordinator), Tel: + 44 (0) 1865 278398

Feedback:

We welcome feedback from schools, colleges, test centres. If you have any comments about this year's arrangements for the test or the test itself please email undergraduate.admissions@maths.ox.ac.uk
