Final Honour School of Mathematics and Computer Science
Final Honour School of Computer Science and Philosophy**

**Parts A and B Examination 2019
Michaelmas Term 2018**

Notice to Candidates from the Examiners in Computer Science:

Assessed practical assignment for Compilers

Full particulars of the examinations are given in the *Examination Regulations 2018*, and the Examination Conventions for 2019 can be found at <http://www.cs.ox.ac.uk/teaching/examconventions.html>

Compilers will be examined partly by an assessed practical assignment (35%) and partly by an examination paper (65%). Instructions for the practical will be emailed to you at 12noon on Friday 30th November (week 8). They will also be available on the [departmental WebLearn site](#).

Submission of the assignment

The completed assignment is due by 12 noon on Friday, 25th January, 2019. You should submit your assignment in an envelope, clearly marked with your candidate number (but not your name) and addressed to Chair of Examiners, FHS Computer Science/Mathematics and Computer Science/Computer Science and Philosophy Part A or B. The envelope must be handed in to the Examination Schools, High Street. Assignments cannot be handed in at the Department of Computer Science, or anywhere else other than at the Examination Schools.

It is best to deliver your answers by hand and in person but, if you cannot do this, then you are strongly advised to use registered post or a courier delivery service.

Although the assignment may be carried out while you are resident in Oxford, it is possible to do some or all of the work while you are away from Oxford over the Vacation period. If you wish to complete the assignment away from Oxford, you should make sure that you have access to adequate computing facilities, including network access to the lab machines in Oxford.

Originality and plagiarism

When submitting your assignment you will have to complete a declaration form attesting that it is your own work, except where you have included explicitly acknowledged quotations from other texts. You need not make explicit acknowledgement of the help given by lab demonstrators during term. Failure to acknowledge your sources explicitly and clearly is plagiarism, which is treated as a very serious disciplinary offence. When matters of plagiarism are reported to the Proctors, the investigations can be protracted and serious for the candidates concerned. Penalties imposed can result in the assignment's being disregarded, or worse, and this could ultimately mean failure of the degree course. For further guidance, consult the University web site regarding plagiarism <http://www.ox.ac.uk/students/academic/goodpractice/>

You may not discuss the assignment with your tutor, fellow candidates, or anyone else. If you suspect there is an actual error or other problem in one of the questions, you should contact a member of the academic admin team (academic.administrator@cs.ox.ac.uk), who will consult the examiners on your

behalf if necessary. Please note that any such queries must be made by **Monday 10th December, 2018**. Any queries received after this date will not be considered. If any unforeseen circumstances had an impact on your performance in the examination, please submit a Mitigating Circumstances Notice to the examiners. You can find more guidance in the examination conventions and here: <https://www.ox.ac.uk/students/academic/exams/guidance?wssl=1>

Late submission or failure to submit coursework

Under the provisions permitted by the regulations, late submission of this assignment where there are no extenuating circumstances may result in the following penalties:

Lateness	Cumulative penalty
Up to 4 hours	1%
4 - 24 hours	10%
24 – 48 hours	20%
48 – 72 hours	30%
72 – 96 hours	40%
96 – 101 hours	50%

All work that is submitted after the deadline without prior permission will incur a late submission fee, unless this fee is waived by the Proctors.

Where permission for late submission has been granted by the Proctors no penalty or fee will be imposed.

Professor Alessandro Abate
