Synchronization of Concurrent Processes
Odd Pettersen
Comp Science Dept, Stanford University (STAN-CS-75-502) -
July 1975

Pettersen Odd
Procedural Events as Software Interrupts
Odd Pettersen
Computer Science Department, Stanford
University (STAN-CS-75-501) - June 1975

Pettersen Odd
The Macro Processing System STAGE2: Transfer of Comments to
the Generated Text
Odd Pettersen
Computer Science Department, Stanford
University (STAN-CS-75-503) - July 1975

Pettit F R
A Review of Current Practice in the UK - Computer Assisted
Learning
F R Pettit, L Eng
Pettit Francis R
2958
Dynamic Generation of Hardware Diagnostic Programs
Francis R Pettit

Pfister G F
4659
S-Dali: Simple Interpolated Change
G F Pfister
1974

Phalippou J
4149
Urodoprocesseur
G Gnesquier, F Gueron, C Guignard, J Phalippou, J Quinio
Grenoble Workshop on Microprogramming, June 9-10 1970(Etude Technique No. 294) - June 1970

Phillips Jorge
3442
Automatic Programming
Robert Elschlager and Jorge Phillips
Stanford Heuristic Programming Project, Computer Science Department, Stanford University(STAN-CS-79-758) - August 1979

Piatkowski Thomas
1064
m-Head Finite State Machines
Thomas F. Piatkowski
University of Michigan - December 1963

Pierce R H
2107
The Gamma design and programming system
M E Falla, D J Pearce and R H Pierce

Pierson
3300
Hydra: the kernel of a multiprocessor operating system
Hulf, Cohen, Corwin, Jones, Levin, Pierson, Pollack
Carnegie-Mellon University - August 1973

Pinzani R
2042
An APL implementation of an interpreter writing system
G Aguzzi, F Cesarini, R Pinzani, G Soda and R Sprugnoli
Laboratorio di analisi numerica, Corso Carlo Alberto, Italy(N. 51) - 1973

Piper J
462
Integrated planning and acting in a stochastic environment
J Piper
Artificial Intelligence, University of Edinburgh

Pippenger N.
1300
Finding the Median
A. Schonhage, M. Paterson and N. Pippenger
Department of Computer Science, Warwick University - April 1975

Pippenger Nicholas
1080
On the Blocking Probability and Complexity of Crossbar Networks
Nicholas Pippenger
IBM Research(RC 4802) - April 10 1974

Pippenger Nicholas
3410
Extendible Hashing - a Fast Access Method for Dynamic Files
Ronald Fagin, Jurg Nievergelt, Nicholas Pippenger and H Raymond Strong
IBM Thomas J Watson Research Center(RJ 2305 (31047)) - July 1978

Lab Equipment Digest

PL/I Definition Gr
Formal description of PL/I

WITHDRAWN
Plate H.
1028
On a Set-theoretical Approach to Semantics of Context-free Language
G. Hattinger, H. Plate and R. Reinke
Allgemeine Elektricitäts-Gesellschaft, Berlin - 1974

Pleasant Ann
1745
Propzero - A first step in program proving
Robin Milner and Ann Pleasants
Dept of Computer Science, University College of Swansea - June 1969

Plemons Robert J
4040
Large Scale Geodetic Least Squares Adjustment by Dissection and Orthogonal Decomposition
Gene H Golub and Robert J Plemons
Department of Computer Science, Stanford University (STAN-CS-79-774) - November 1979

Plotkin
472
A Set Theory Definition of Application
Plotkin
University of Edinburgh, Dept of Artificial Intelligence - March 1972

Plotkin G
768
The λ-Calculus is omega-incomplete
G Plotkin
Edinburgh (SAI-RM-2) - 1973

Plotkin G
3823
Notes on Dijkstra's weakest precondition semantics
G Plotkin
April 1971

Plotkin G C
1965
LCF considered as a programming language
G C Plotkin
School of Artificial Intelligence, University of Edinburgh (SAI-RM-6) - July 1974

Plotkin G D
1474
Building-in Equational Theories
G D Plotkin
Dept of Machine Intelligence, University of Edinburgh

Plotkin G D
4197
A Term Model for CCS
M C B Hennessy and G D Plotkin
Department of Computer Science, University of Edinburgh - 1980

Plotkin G D
4183
Dijkstra's Predicate Transformers and Smyth's Powerdomains
G D Plotkin
Department of Computer Science, University of Edinburgh - 1980

Plotkin G D
4231
A Cook's Tour of Countable Nondeterminism
K R Apt and G D Plotkin
1979?

Plotkin G D
372
Assigning and evaluating in programming schemata
G D Plotkin
Dept of Machine Intelligence, University of Edinburgh

Plotkin G D
4324
Full Abstraction for a Simple Parallel Programming Language
M C B Hennessy and G D Plotkin
Department of Artificial Intelligence, University of Edinburgh - 1978?

Pnueli A
3547
A Temporal Semantics for Concurrent Programs
Amir Pnueli
University of Pennsylvania

A Complete Axiomatic System for Proving Deductions about Recursive Programs
David Harel, Amir Pnueli and Jonathan Stavi
Laboratory for Computer Science, M.I.T. (MI/LCS/PM-96) - February 1978

Two Approaches to Interprocedural Data Flow Analysis
Micha Sharir and Amir Pnueli
(Report No. 002) - September 1978

Completeness Results for the Future Fragment of Temporal Logic
Dov Gabbay, Amir Pnueli, Saharon Shelah and Yonatan Stavi
1979

A Complete Axiomatic System for Proving Deductions about Recursive Systems
David Harel, Amir Pnueli and Jonathan Stavi
April 1977

The Temporal Logic of Programs
Amir Pnueli
University of Pennsylvania

Backtracking in Recursive Computations
Nissim Francez, Boris Kiebansky and Amir Pnueli
Acta Informatica (Volume 8, Pages 125-144) - 1977

The Temporal Logic of Programs
Amir Pnueli
University of Pennsylvania - 1977

A Proof Method for Cyclic Programs
Nissim Francez and Amir Pnueli
Acta Informatica (Volume 9, Pages 133-157) - 1978

A Direct Algorithm for Checking equivalence of LL(k) Grammars
Tima Olishansky and Amir Pnueli

Axiomatic approach to total correctness of programs
Zohar Manna and Amir Pnueli
Springer-Verlag - 1974

Simple Programs and their Decision Problems
Amir Pnueli and G Slutzki
1976

The Temporal Semantics of Concurrent Programs
Amir Pnueli
Division of Computer Science, Tel-Aviv University - 1978

A Proof Method for Cyclic Programs
Nissim Francez and Amir Pnueli
1974
Pnueli Amir
3534
Axiomatic Approach to Total Correctness of Programs
Zohar Manna and Amir Pnueli
Acta Informatica(Volume 3, Pages 243-263) - 1974

Pnueli Amir
3535
A Temporal Semantics for Concurrent Programs
Amir Pnueli
University of Pennsylvania(Extended Abstract) - November 1977

Pnueli Amir
3536
Compiling Iterations in Non Procedural Languages
Amir Pnueli and Noah S Prywes
University of Pennsylvania - 1977

Pnueli Amir
3538
Automatic Programming of Finite State Linear Programs
Amir Pnueli and Giora Slutzke
Department of Statistics and Computer Science(Technical Report No. 78/6) - April 1978

Pnueli Amir
3537
A Simple Specification Language to ADP and its Implementation
Amir Pnueli
(Draft) - 1976

Poduska J W
4135
Advanced Computer Programming
F J Corbato, J W Poduska and J H Saltzer
MIT - 1963

Poduska John Willi
78
MLPL: a Mad compiled List Processing Language
John William Poduska
MIT Project Mac(MAC-M-303) - 10 February 1966

Poel W L van der
1059
A Comparative Study of Some Higher Programming Languages
W L van der Poel
12 - 23 June 1972

Pohl Ira
1081
Heuristic Search Viewed as a Path Problem
Ira Pohl
IBM Research(RC 2770) - January 26 1970

Pohl Ira
980
Invited Remarks on the State of 'Learning Programmes' made at SJCC 1970, May 7 1970
Ira Pohl
IBM Research, New York(RC 2926) - June 23 1970

Polak W
3438
Stanford Pascal Verifier User Manual
D C Luckham, S M German, F W v Henke, R A Karp, P W Milne, D C Oppen, W Polak and W L Scherlis
Stanford Verification Group, Computer Science Department, Stanford University(STAN-CS-79-731) - March 1979

Pole K E
26
A quantitative study of problem-solving using sliding block puzzles
J E Hayes, Donald Michie, K E Pole and P D A Schofield
Experimental Programming Reports(No 7) - November 1965

Policy Council for
4489
(JES/Flowers)
A Report of a Joint Working Group on Computers for Research Council for Scientific Policy, University Grants Committee
Her Majesty's Stationery Office(2883) - January 1966

Polillo R
629
Note Sulla Derivata di un Programma
G Antoni and R Polillo
Popplestone R J 4118

Memo functions and the POP-2 language
R J Popplestone
Department of Machine Intelligence and Perception,
University of Edinburgh (MIP-R-30) - November 1967

Popplestone R J 382

Tokyo-Edinburgh dialogue on robots in artificial intelligence research
H G Barrow, D Michie, R J Popplestone and S H Salter
Dept of Machine Intelligence, University of Edinburgh (Vol 14 No 1)

Popplestone R J 380

How Freddy could put things together
R J Popplestone
Department of Machine Intelligence, University of Edinburgh

Popplestone R J 4060

POP-2 Reference Manual
R M Burstall and R J Popplestone
Dept of Machine Intelligence and Perception, University of Edinburgh - March 1967

Popplestone Robin 80

Beth-Tree Methods in Automatic theorem-proving
Robin J Popplestone
Experimental Programming Unit, University of Edinburgh

Popplestone Robin 79

Cowseq
Robin J Popplestone
Experimental Programming Unit, Edinburgh (EPU-R-12)

Portman E C P 4247

Project Little - an experimental ultra reliable system
J B Brenner, C P Burton, A D Kitto and E C P Portman
ICL Technical Journal - May 1980

Post Office 2428

The Experimental Packet Switched Service
Post Office
Post Office - 1977

Poulain C 3800

Performance of Protocols in the Satellite Channel
E Gelenbe, C Poulain
Laboratoire de Recherche en Informatique, Universite de Paris-Sud (Rapport de Recherche No 26) - January 1979

Povey Tom 1601

An Analysis of Structured Programming
Tom Povey
Brunel University Department of Computer Science - April 1976

Powell M S 2900

Developing a Programming Methodology for Multiprograms
D Coleman, J W Hughes and M S Powell
University of Manchester - March 1978

Powell M S 3/31

A Method for the Syntax Directed Design of MultiPrograms
D Coleman, J W Hughes and M S Powell
Department of Computation, University of Manchester Institute of Science and Technology (Report No. 243) - September 1979

Powell M S 3051

Designing Concurrent Programs
D Coleman, J W Hughes, M S Powell
University of Manchester - September 1978
Pozgaj S
1974
The Relational Database System OMEGA - August 1975 Progress Report
H A Scmig, F A Bernstein, D A Arlow, R Baker and S Pozgaj
Computer Systems Research Group, University of Toronto(CSRG-72) - July 1976

Prakash Naveen
3043
HYPOL - A Database Language
Naveen Prakash, M Ibramsha and J C Shourie

Prasad KVS
2986
Physical and Logical Abstractions in a Kernel
KVS Prasad, N Natarajan, MK Sinha
National Centre for Software Development and Computing Techniques - March 1976

Prasad V R
2984
More on Nested Monitor Calls
M Joseph and V R Prasad
National Centre for Software Development and Computing Techniques - April 1978

Prasad VR
2985
Language and Structure in an Operating System
M Joseph, VR Prasad, KI Narayana, IV Ramakrishnan, S Desai
National Centre for Software Development and Computing Techniques - March 1978

Pratt Terrence W
1963
A Theory of Programming Languages Part I
Terrence W Pratt
University of Texas at Austin Computation Center(UITEX-CCSN-41) - July 1975

Pratt Terrence W
911
An Experimental Syntax-Directed Data Structure Language
Robert K. Lindsay, Terrence W. Pratt and Kenneth M. Shavor
The RAND Corporation, Santa Monica, California(P-3112) - April 1965

Pratt V R
1405
Computability and Completeness in Logics of Programs
D Harel, A R Meyer and V R Pratt
Massachusetts Inst of Technology - April 20 1975

Pratt V R
4662
Semantical Considerations on Floyd-Hoare Logic
V R Pratt
(JES/Pratt/July 7) IEEE Symposion on Foundations of Comp Science - July 1976

Pratt V R
2155
Computability and Completeness in Logics of Programs
D Harel, A R Meyer and V R Pratt
Massachusetts Inst of Technology - April 20 1975

Pratt V R
3541
Comments on R. London's "Program Verification"
D Harel and V R Pratt
M.I.T. - December 1977

Pratt Vaughan
1905
Time Bounds for Selection
Manual Blum, Robert W Floyd, Vaughan Pratt, Ronald L Rivest
and Robert E Tarjan
Computer Science Department, Stanford
University(STAN-CS-73-349) - April 1973

Pratt Vaughan R
1891
Fast Pattern Matching in Strings
Donald E Knuth and James H Morris Jr and Vaughan R Pratt
Computer Science Dept, Stanford University(STAN-CS-74-440) - August 1974

Pratt Vaughan R
Non-determinism in Logics of Programs
Pratt Vaughan R
3126
Nondeterminism in Logics of Programs
David Harel and Vaughan R Pratt
Massachusetts Institute of Technology - August 1977

Pratt Vaughan R
4661
Quick and Clean - A Structured Approach to Language
Definition
Vaughan R Pratt
Massachusetts Inst of Technology - March 1974

Pratt Vaughan R
2001
Computability and Completeness in Logic of Programs
David Harel, Albert R Meyer and Vaughan R Pratt
Massachusetts Institute of Technology (M17/LCS/TM-97) - February 1978

309
A Theory of Continuously Valued Logic
F P Preparata and R T Yeh
Electronics Research Center, University of Texas (70-1827TR)
- June 1970

Preparata Franco P
3468
The Cube-Connected Cycles: a Versatile Network for Parallel
Computation
Franco P Preparata and Jean Vuillemin
IRIA (Rapport de Recherche No 356) - June 1979

Presser L
Software measurements and their influence upon machine
Price W L
3766
A Protocol for Secure Communication
D W Davies and W L Price
National Physical Laboratory (NPL Report NACS 21/79) - November 1979

Price W L
4255
Selected Papers in Cryptography and Data Security
D W Davies and W L Price
National Physical Laboratory (NPL Report DNACS 38/80) - November 1980

Price W L
4257
A Fourth Annotated Bibliography of Recent Publications on Data Security and Cryptography
W L Price
National Physical Laboratory (PL Report DNACS 33/80) - September 1980

Price W L
3404
Simulation of a Packet-Switched Data Network Operating with a Revised Link and Node Protocol
W L Price
National Physical Laboratory (NPL Report Com 68) - April 1973

Price W L
3734
An Annotated Bibliography of Recent Publications on Data Security and Cryptography
D W Davies and W L Price
National Physical Laboratory (NPL Report DNACS 25/80) - January 1980

Price W R
701
Implications of a Virtual Memory Mechanism for Implementing Protection in a Family of Operating Systems
W R Price

Price W R
3179
Conversational Programming - APL an Implementation in Bliss
A J Perlis, R D Fennell, F J Pollack, W R Price, M F Rizz
Carnegie-Mellon University

Price W L.
2409
Simulation of a Packet-Switched Data Network Operating with a Revised Link and Node Protocol
W L Price
Division of Computer Science, National Physical Laboratory (NPL Report CUM 68) - April 1973

Price W L.
2413
Simulation Studies of an Isarithmically Controlled Store and Forward Data Communication Network
W L Price
Division of Computer Science, National Physical Laboratory (Information Processing '74 - North Holland Publishing Company (1974)) - 1974

Price W L.
2406
The Effect of Link Errors and of Selective Upgrading of Link and Node Speed on Network Performance
W L Price, G R Cowin
Division of Computer Science, National Physical Laboratory (NPL Report CUM 76) - September 1974

Price W L.
2412
Survey of NPL Simulation Studies of Data Networks, 1968-1972
W L Price
Division of Computer Science, National Physical
Price W.L. 2419

Design of Data Communication Networks Using Simulation Techniques
W.L. Price
Division of Computer Science, National Physical Laboratory (Reprinted from Computer Aided Design, Vol. 6, No. 3) - July 1974

Price W.L. 2405

Simulation Studies of the Effect of Link Breakdown on Data Communication Network Performance
W.L. Price, G.W. Cowin
Division of Computer Science, National Physical Laboratory (NPL Report COM 77) - February 1975

Price W.L. 2404

Simulation of the 10-Node Data Communication Network Operating With Link Speeds of 9.6kb/s
W.L. Price
Division of Computer Science, National Physical Laboratory (NPL Report COM 87) - January 1977

Price W.L. 2407

A Study of Bifurcated Routing in a Data Network and the Effect of Isarithmic Flow Control in This Context
W.L. Price
Division of Computer Science, National Physical Laboratory (NPL Report COM 72) - March 1974

Price W.L. 2402

Further Simulation Experiments on Adaptive Routing Using Locally Available Parameters
W.L. Price
Division of Computer Science, National Physical Laboratory (NPL Report COM 81) - December 1975

Price W.L. 2411

Logical Description of a Program for the Simulation of Computer Networks
W.L. Price
Division of Computer Science, National Physical Laboratory (NPL Report COM 62) - December 1972

Price W.L. 2408

Simulation of a Packet Switched Data Network Operating Under Isarithmic Control With a Revised Link and Node Protocol
W.L. Price
Division of Computer Science, National Physical Laboratory (NPL Report COM 71) - September 1973

Prince P.J. 3395

Runge-Kutta processes with exact principal error equations
P.J. Prince and K. Wright
Computing Laboratory, University of Newcastle upon Tyne (Technical Report Number 104) - June 1977

Princeton 894
