Comparison of Some End-to-End Flow Control Policies in a Packet Switching Network
Guy Pujolle
IRIA(No 1) - January 1980

Performance of the HDLC Protocol
Jacques Labetouille and Guy Pujolle
IRIA(Rapport de Recherche No 352) - May 1979

Analytic Methods for Multiprocessor System Modelling
Alain Kurinckx and Guy Pujolle
IRIA(Rapport de Recherche No 331) - November 1978

Network Architecture and X25
W F C Purser
Department of Computer Science, University of Dublin(CSC-77-02) - April 1977

Algol 68: Intermediate Programming Course
P M Woodward and A Putley
1975

A Computational Proof Procedure: Axioms for Number Theory: Research on Hilbert's Tenth Problem
Martin Davis and Hilary Putnam
Rensselaer Polytechnic Institute, Research Division, New York(AFOSR TR59-124) - October 1959

Trial and Error Predicates and the Solution to a Problem of Mostowski's
Hilary Putnam
New York University(1MM-NYU 290) - June 1961

Comments on Tinman
I C Pyle
Department of Computer Science, University of York - February 1976

Axioms for User-defined Operators
I C Pyle
Software - Practice and Experience(Vol. 10) - 1980

Stanford Automatic Photogrammetry Research
Lynn H Guan and Marsha Jo Hannah
Stanford University(STAN-CS-74-472) - December 1974

Stanford Lisp 1.6 Manual
Lynn H Guan and Whitfield Diffie
Stanford Artificial Intelligence Lab(Note 28.6)

Stanford Lisp 1.6 Manual
Lynn H Guan and Whitfield Diffie
Stanford University(28.7)

Finite State Testing of Structured Programs
Peter Henderson and P Guarendon
Newcastle(1K-58) - 1974

A Generic Programming Approach to Space-time Tradeoffs
P Guarendon
Newcastle(MRM/72)
