Wise David S
1967
Recursive Programming Through Table Look-Up
Daniel P. Friedman, David S Wise and Mitchell Wand
Indiana University Computer Science Department(Tech Report No 45) - March 1976

Wise David S
3711
Applicative Multiprogramming
Daniel P. Friedman, David S Wise
Computer Science Department, Indiana University(Technical Report No. 72) - December 1978

Wise David S
4501
Aspects of Applicative Programming for file Systems
Daniel P. Friedman and David S Wise
Indiana University Comp Science Dept(Technical Report No 56) - January 1977

Wise David S
4500
Output driven interpretation of recursive programs, or writing creates and destroys data structures
Daniel P. Friedman and David S Wise
Indiana University Comp Science Dept(Tech Report No 50) - July 1976

Wise David S
4862
Applicative Multiprogramming
Daniel P. Friedman and David S Wise
Indiana University Computer Science Department(Technical Report no 72) - January 1977

Wise David S
4496
Cons should not Evaluate its Arguments
Daniel P. Friedman and David S Wise
Indiana University Computer Science Dept(Technical Report No 44) - November 1975
Output driven interpretation of recursive programs, or writing creates and destroys data structures
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Department (No 50) - July 1976

Garbage Collection in a Hashing Environment
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Dept (Technical Report No 34) - July 1975

Boolean-valued loops
David S. Wise, Daniel P. Friedman, Stuart C. Shapiro and Mitchell Wand
Indiana University Computer Science Dept (21) - June 1975

Recursive Programming through Table Look-up
Daniel P. Friedman, David S. Wise and Mitchell Wand
Indiana University Computer Science Dept (Tech Report No 45) - March 1976

A Note on Conditional Expressions
Daniel P. Friedman and David S. Wise
Indiana University (Technical Report No. 70) - October 1977

An environment for multiple-valued recursive procedures
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Department (Report No 40) - October 1975

The Impact of Applicative Programming on Multiprocessing
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Department (Tech Report No 52) - July 1976

Aspects of Applicative Programming
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Department (Report No 56) - January 1977

A strong pumping lemma for context-free languages
David S. Wise
Indiana University Computer Science Dept (4) - November 1975

Cons should not evaluate its arguments
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Department (No 44) - November 1975

Unwinding Stylized Recursions into Iterations
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Dept (Technical Report No 19) - December 1975

Applicative Multiprogramming
Daniel P. Friedman and David S. Wise
Indiana University (Technical Report No. 72) - January 1977
Structured recursion: its properties, translation and implementation
Daniel P. Friedman and David S. Wise
Indiana University Foundation - 1975

Multiple-Valued Recursive Procedures
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Dept. (Technical Report No 27) - February 1976

A Conditional, Interlock-free Store Instruction
Daniel P. Friedman, David S. Wise
Computer Science Department, Indiana University (Technical Report No. 74) - December 1976

A Constructor for Applicative Multiprogramming
Daniel P. Friedman, David S. Wise
Computer Science Department, Indiana University (Technical Report No. 80) - January 1979

An Environment for Multiple-Valued Recursive Procedures
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Dept. (Technical Report No. 40) - October 1975

The Impact of Applicative Programming on Multiprocessing
Daniel P. Friedman and David S. Wise
Indiana University Computer Science Dept. - July 1976

F L Bauer, M Partsch, P Pepper, H Wossner
Institut für Informatik, Technische Universität
München (TUM-INFU-7729) - July 1977

Wossner H
3913

Notes on the Project CIMP: outline of a transformation
system
F L Bauer, M Partsch, P Pepper, H Wossner
TUM (TUM-INFU-7729) - July 1977

Wossner P Pepper a
2693

Towards a Wide Spectrum Language to Support Program
Specification and Program Development
F L Bauer, M Bruey, K Ghatz, B Krieg-Bruckner, M Partsch, P
Pepper and H Wossner
Munich

Wozencraft J
410

Notes on Programming Linguistics
J. Wozencraft and A. Evans Jnr.
Department of Electrical Engineering, Mass. Inst. of

Wozencraft J M
217

Notes on programming linguistics
J M Wozencraft and Arthur Evans

Wozniakowski H
3049

General theory of Optimal Error Algorithms and Analytic
Complexity: Part b - Iterative Information Model
J F Traub and H Wozniakowski
Department of Computer Science, Carnegie-Mellon University -
November 1978

Wright J B
1417

A Junction between Computer Science and Category Theory, I:
Basic Concepts and Examples (Part 2)
J A Boguen, J Hatcher, E G Wagner and J B Wright
IBM Research (KC 5905) - 3,1976

Wright J B
4185

Data Type Specification: Parameterization and the Power of
Specification Techniques
J. W. Thatcher, E. G. Wagner and J. B. Wright
IBM Yorktown (K6 7757) - July 1979

Wright J. B.
4604
(IES/Boguen)

Initial Algebra Semantics and Continuous Algebras
J. A. Goguen, J. W. Thatcher, E. G. Wagner and J. B. Wright
Journal of the Association for Computing Machinery (Vol 24 No. 1) - January 1977

Wright J. B.
1416

An Introduction to Categories, Algebraic Theories and Algebras
J. A. Goguen, J. W. Thatcher, E. G. Wagner and J. B. Wright
IBM Research (K6 5539) - April 10 1975

Wright J. S.
353

String Processing - Report on a Workshop
J. S. Wright

Wright J. B.
1284

Initial Algebra Semantics and Continuous Algebras
J. A. Goguen, J. W. Thatcher, E. G. Wagner and J. B. Wright
January 1977

Wright J. B.
1286

Some Fundamentals of Order-Algebraic Semantics
E. G. Wagner, J. B. Wright, J. A. Goguen and J. W. Thatcher
IBM Research, New York

Wright Jesse B
2661

Automata in General Algebras
Samuel Eilenberg and Jesse B Wright
Thomas J. Watson Research Center, Yorktown Heights (K6 725) - 20 July 1967

Wright K
3395

Runge-Kutta processes with exact principal error equations
P. J. Prince and K. Wright
Computing Laboratory, University of Newcastle upon Tyne Technical Report Number 104) - June 1977

Wright M
1360

Stanford Computer Science Dept. Research Report
R. Davis and M. Wright
Stanford Comp Sci Dept - Jan 1976

Wright M
2503

Stanford Computer Science Department Research Report
R. Davis and M. Wright
Stanford University (SIAH-CS-76-405) - January 1976

Writhn J
3315

(68)

R. Reddy J. Brodley, L. Erman, R. Johnson, J. Newcomer, G. Robertson and J. Writhn
Carnegie-Mellon University - April 1973

Wrigues M
1019

Using Predicate Transformers to Verify the Effects of 'Real' Programs
D. L. Parnas, M. Bartussek, G. Handzel and M. Wrigues
Technische Hochschule Darmstadt (68 1/7073) - 29.9.76

Wriggles K
4712

(IES/Wriggles/Lect)

A lecture on APL
K. Wriggles
Dept of Computing Science, University of Alberta (IK7/5-2) - July 1975

Wriggles M
3300

(68)

Hydra: the kernel of a multiprocessor operating system
Wriggles, Cohen, Corwin, Jones, Levin, Pierson, Pollack
Carnegie-Mellon University - August 1973
Reflections in a Pool of Processors
William A. Wulf and Samuel P. Harbison
Carnegie-Mellon University (CMU-CS-78-103) - February 1978

C.mmp: A multi-mini-processor
William A. Wulf and C. L. Bell
Carnegie-Mellon University

ALPHARD: towards a language to support structured programs
William A. Wulf
Computer Science Dept., Carnegie-Mellon University - 1974

Reliable hardware-software architecture
William A. Wulf
Computer Science Department, Carnegie-Mellon University

Achieving Quality Software: Reflections on the aims and objectives of Alphard
William A. Wulf, Mary Shaw and Ralph L. London
USC Information Sciences Inst

ICUL-Ada: An intermediate representation for the DOD Standard Programming Language
Bruce J. Schatz, Bruce K. Leverett, Joseph M. Newcomer, Andrew G. Reiner and William A. Wulf
Department of Computer Science, Carnegie-Mellon University (CMU-CS-79-112) - March 1979

ICUL-Ada: Revised report on an intermediate representation for the preliminary Ada Language
O. M. Brosol, J. M. Newcomer, F. A. Lamb, D. K. Levine, M. S. van Deusen, William A. Wulf
Department of Computer Science, Carnegie-Mellon University (CMU-CS-80-105) - February 1980

Mary Shaw, Paul Hilfinger and William A. Wulf
Carnegie-Mellon University (CMU-CS-78-133) - June 1978

Reflections in a Pool of Processors: An experience report on C.mmp/nyde
William A. Wulf and Samuel P. Harbison
Department of Computer Science, Carnegie-Mellon University - February 1978

Programming without the goto
William A. Wulf
Information Processing 71 - 1972

Supporting Small Objects in a Capability System
Dieter Lanciaux, Lee Schiller, William A. Wulf
Carnegie-Mellon University (CMU-CS-76-107) - February 1978

Alphard: Toward a language to support structured programs
William A. Wulf
Dept. of Computer Science, Carnegie-Mellon University - April 1974

Abstraction and Verification in Alphard: Introduction to language and methodology
William A. Wulf, Ralph L. London and Mary Shaw
Dept. of Computer Science, Carnegie-Mellon University - June
**Mull WM A.**

"Language Design for the Ironman Requirement: Notes and Examples"
Mary Shaw, Paul Milftinger and WM A. Mull
Carnegie-Mellon University - 31 May 1970
